STAR Test Site Coordinator Videotape

The changes in the STAR Test Site Coordinator information between 2003 and 2004 include the following:

- 2004 is the second year:
 - With ETS as the testing contractor
 - For using the CAT/6 Survey as the norm-referenced component of the STAR Program
 - For administering the CAPA
- Test site coordinators may use the 2003 videotape in pre-test workshops with test examiners and proctors, although it is not required.
- The name of the Scoring Service Identification Sheets (SSID) have been changed to School and Grade Identification Sheets (SGID).
- Only the Grade Two Directions for Administration (DFA) is secure. Schools and school districts, however, are asked to return all 2004 DFAs.
- Mobility dates are now collected only at the school level. District mobility is no longer marked on student answer documents.
